Colorado State University Extension programs are available to all without discrimination.

Colorado State University Extension is your local university community connection for research-based information about natural resource management; living well through raising kids, eating right and spending smart; gardening and commercial horticulture; the latest agricultural production technologies and community development. Extension 4-H and youth development programs reach more than 90,000 young people annually, over half in urban communities.

2015 WEST CENTRAL CATTLEMEN'S DAY

This program was developed for both new and experienced cattlemen. The present economic situation requires cattlemen to be on top of the latest technology and research-based information in order to keep their operations profitable. This program presents information to help improve pasture management, improve animal health, and reduce operation costs.
